

Subject: Support the Reynolds Reybots Silent Auction – Empower Future Innovators

I am writing on behalf of the **Reynolds Secondary Robotics Team** to invite you to support our **upcoming online silent auction, taking place November 21–30**. This event will help raise essential funds for our high school robotics program — supporting our students as they design, build, and compete in local, provincial, and international robotics competitions. Funds raised also allow us to continue mentoring our middle school teams and grow STEM opportunities for younger students.

We have a passionate group of **students in grades 9–12**, along with dedicated teachers and volunteers, who share a love of **science, technology, engineering, and mathematics (STEM)**. Participation in the robotics team gives students hands-on experience with real-world engineering, teamwork, and problem-solving.

Over the past three years, we have proudly **won the provincial championships** and represented our school and community and won a prestigious award at the **Robotics World Championship** — an incredible opportunity to collaborate with teams from around the globe.

As you can imagine, the costs of building and programming robots, as well as travel to competitions, can be significant. To help cover these expenses, we organize various fundraising events throughout the year — from bottle drives and pizza sales to our annual online silent auction.

We would be **grateful to include a donation from your business** in this year's auction. Your contribution will directly support our team's growth and help us continue inspiring the next generation of engineers, innovators, and leaders.

In appreciation of your support, your business name and logo will be **featured on our auction website** and on the **Reynolds Reybots website**, showcasing your commitment to education, innovation, and the youth of our community.

Thank you for considering this request. Your support truly makes a difference for our team and the future of STEM in our community. If you have any questions or would like to get involved, please contact our fundraising team at **reynoldsreybotsfundraising@gmail.com**.

With gratitude,

The Reynolds Secondary Robotics Team – The Reybots
