Hello Reynolds Families!

Our school will be holding a day ski/snowboard trip to Mt. Washington on Friday, January 30, 2026. This is the turn around day between semesters and there are no classes scheduled.

There are 100 seats available on a first come/first served basis. To reserve a seat, all paperwork must be submitted, and the Google form completed. Once this is done and confirmed by Reynolds Staff, a link to pay will be provided. Once paid for, your seat is confirmed. At no point before payment is received will your seat be confirmed.

Fees can be paid online and are dependent on individual students' needs for the day. ***All students must pay for a lesson as part of our package.*** The following options are available:

Bus & Lesson (student has own Mt. Washington lift pass and own equipment) \$118.30

Bus, Lesson & day lift pass (student has own equipment) \$140.55

Bus, Lesson, and Rentals (student has own Mt. Washington lift pass) \$152.25

Bus, Lesson, day lift pass & rentals \$174.50

The cut-off for forms to be returned/completed is (Friday, January 9th). Fees must be paid by (Tuesday, January 13th). If fees are not paid by the due date, your seat may be given to the next person on the waitlist. Once we have sold 100 spaces, we will start a waitlist. To be on the waitlist, all forms must be submitted by the due date and will be initialed, dated, and entered into a tracking system by the office staff as they are submitted. Should spaces become available for any reason, families will be contacted in the order that forms were entered into the system.

See other side for Assumption of Risks →

**Assumption of Risks:**

\*I am aware that skiing, snowboarding, Nordic skiing, ski boarding and snowshoeing involve risks, dangers and hazards and that injuries are a common and ordinary occurrence of these sports.

**Skiing:** I understand that the ski boot/binding system may not release during every fall or may release unexpectedly. The ski boot/binding system is no guarantee that the user will not be injured.

**Snowboarding, /Nordic/Telemarking/Ski board/Snowshoe:** I understand that the boot/binding system is not designed or intended to release and will not release under normal circumstances. I understand that as the boot/binding system is a non-release system this system will not reduce the risk of injury during a fall and will increase the risk of not surviving an avalanche.

**Helmets:** I understand that a helmet designed for RECREATIONAL SNOW SPORTS use will help reduce the risk of some types of injuries to the user at slower speeds. I recognize that serious injury or death can result from both low and high energy impacts, even when a helmet is worn.
